

n-SERIES

Loudspeakers

With the launch of n-SATS, n-CENT and n-SUB, a Naim AV system need no longer stop at the power amplifiers. All the traditional engineering and acoustic integrity of Naim hi-fi speakers in an AV range means that, at last, a home theatre system can stay Naim from source to ears.

n-SATS

n-Sats are closed box, two-way design mini monitors. They are perfect for front or surround application in home theatre, as well as the main speaker system in a traditional stereo set-up. Featuring unique, custom made drivers in a curved baffle, mass damped enclosure, n-Sats are as visually engaging as they are musically transparent.

n-CENT

The use of n-SATS drivers and a similarly curved enclosure makes the n-CENT an exact acoustic and aesthetic match. The extra demands of the centre channel application are handled by a second bass/mid driver deployed in a symmetrical array either side of the ring radiator tweeter.

n-CENT can be wall mounted, stand mounted or supported within a Naim Fraim equipment stand.

n-SUB

Great bass has always been a fundamental part of the Naim sound and the n-SUB, our first sub-woofer, demonstrates this perfectly. The n-SUB is a three input, closed box active sub-woofer featuring an all new dedicated amplifier, remote control, unique pre-set interface software and a custom, extended displacement 250mm driver. n-SUB provides musical and articulate bass right down to the limits of hearing for any system - AV or music, Naim or not.

n-SATS n-CENT n-SUB**Loudspeakers****INSTALLATION**

Installing five speakers and a sub-woofer in any living environment is bound to present a degree of difficulty. With easy assembly, cable management and innovative presentation, the n-series floor stands and wall brackets make the setting up of this package as painless as possible.

**ENGINEERING DETAIL**

It's the attention to detail in Naim loudspeakers that makes them unique. Every single component and manufacturing technique is selected on the basis that it sounds the best. And just because the n-SERIES is designed for home theatre doesn't mean any corners have been cut. n-SERIES speakers make music just like any other Naim product.

**MUSIC ALONE**

The combination of n-SATS and n-SUB can be more than just two-thirds of a home theatre audio system. For those with limited space, n-SATS on stands or wall brackets and n-SUB hidden away on the floor is the perfect musical, dynamic, wide-bandwidth stereo speaker system.

**SPECIFICATIONS**

	n-SATS	n-CENT
Frequency Response:	50Hz to 20kHz	50Hz to 20kHz
Sensitivity:	87dB for 1 Watt at 1 metre	87dB for 1 Watt at 1 metre
Power Handling:	100 watts (Music Programme)	125 watts (Music Programme)
Nominal Impedance:	6Ω	6Ω
Bass/Mid Driver:	1 x 130mm Paper Cone	2 x 130mm Paper Cone
Tweeter:	19mm Ring Radiator	19mm Ring Radiator
Dimensions: (H x W x D):	285 x 200 x 208mm	160 x 430 x 300mm
Finish:	Cherry, Maple, Black Lacquer	Cherry, Maple, Black Lacquer

n-SUB

Frequency Response:	20Hz to 250Hz
Amplifier Power:	350 Watts
Driver:	Extended Displacement 250mm
Inputs:	2 x line level, 1 x speaker level, independently selectable
Control:	Remote Handset or Front Panel
Interface:	Direct Adjustment or Pre-programmed Preset Selection
Dimensions: (H x W x D):	385 x 385 x 393mm
Finishes:	Cherry, Maple, Black Lacquer
